Academy of Machines

Tabletop frame

Print at actual size (100%). Measure the 50 mm scale before cutting.

Post 1 60 x 8 mm

Post 2 60 x 8 mm

Post 3 60 x 8 mm

Post 4 60 x 8 mm

Solid lines = cut. Dashed outlines = post placement only.

Foam or wood study: use the sheet thickness for the post depth; keep the four lengths equal.

Use a square to align both rings. This static exercise is independent of the full-size robot.
